NATIONAL EMERGENCY THE DEAD WALK!

The Latest Information

Representatives of the Governor's Office stated late last night that bodies of the recently dead are, by some unknown force, reanimating and attacking the living.

This morning, spokespersons for the federal government confirmed this unbelievable event: The attackers are the dead returned to a sort of life by some unknown force or agent. These reanimated bodies are apparently unable to communicate. They murder living victims and cannibalize them.

Reports of mass murder and cannibalism are accurate.

The first attacks were reported in the US and Europe on 6 October 2010. By 18 October 2010 these attacks were being reported worldwide. Until now these attacks have been in small numbers and always after nightfall.

Yesterday, 21 October, has been dubbed "Black Monday" by the news media and government spokespersons. These attacks began occurring during daylight, with attackers numbering in the hundreds to thousands.

Riots are being reported across the country as citizens attempt to flee the cities and obtain vital supplies, and in many parts of the country phone lines and electrical service are out.

A state of National Emergency has been declared.

The National Guard and units of the US military have been mobilized to combat this threat and protect citizens.

The Governor's Office urges you to be calm and remain indoors until you receive further instructions.

Surviving This Crisis

Reanimated corpses will attack any warm-blooded animal and devour it. Living humans appear to be their preferred prey. They will kill you and eat you.

Secure your homes against forced entry by these creatures. Exercise caution at all times. Do not open your door unless the person outside can answer you.

Do not venture outside alone or unarmed. Shelter in place until you receive further instructions. Do not attempt to reach family members. If your current location is not defensible, make your way as best you can to the nearest law enforcement agency headquarters.

Anyone who dies from any cause will reanimate and attack living victims without hesitation.

If you are wounded by one of these beings, seek medical attention immediately. Wounds caused by reanimated corpses appear to be highly septic, and it is imperative that you seek immediate medical attention for life-threatening wounds. The National Guard has been mobilized and is taking up positions at area hospitals to protect doctors and patients.

BY ORDER OF THE FEDERAL GOVERNMENT, ALL CORPSES MUST BE INCAPCITATED BY DECAPITATION, INCINERATION, OR A GUNSHOT TO THE HEAD.

BE ADVISED: A DUSK-TO-DAWN CURFEW IS IN EFFECT AND LOOTERS ARE BEING SHOT ON SIGHT.

**STAY INSIDE. LOCK YOUR DOORS.
AWAIT FURTHER INSTRUCTIONS FROM YOUR
LOCAL EMERGENCY SERVICES PERSONNEL
Tune to AM Band 1220 for current emergency information.**
